Our Success Story

ElHejaz is an industrial company founded in 1980.

For over 45 years we have stood as a pillar in the engineering and manufacturing industry, and one of the most reputable names in the market.

ElHejaz delivers durable and stylish solutions designed to elevate your outdoor space; such as retractable pergolas, glass rooms, cladding, and aluminum & UPVC products. Every piece we manufacture is a blend of smart engineering with endless luxury; it's perfect for houses and businesses.

Our Mission

Through a combination of skilled craftsmanship, cutting-edge technology, innovative design, and the highest-quality materials, we ensure that we remain the go-to provider for all exterior and interior design solutions. We are committed to deliver excellence in design, functionality, and comfort, ensuring every space reflects the warmth and individuality of those who live there.

Our Vision

To redefine living spaces across the region by offering a wide array of innovative solutions making every home a sanctuary of beauty, convenience, and belonging.

Our Values

Customer-Centricity.
Innovation.
Excellence.
Expertise.
Integrity.
Craftsmanship.
Sustainability.

Our Trusting Clients

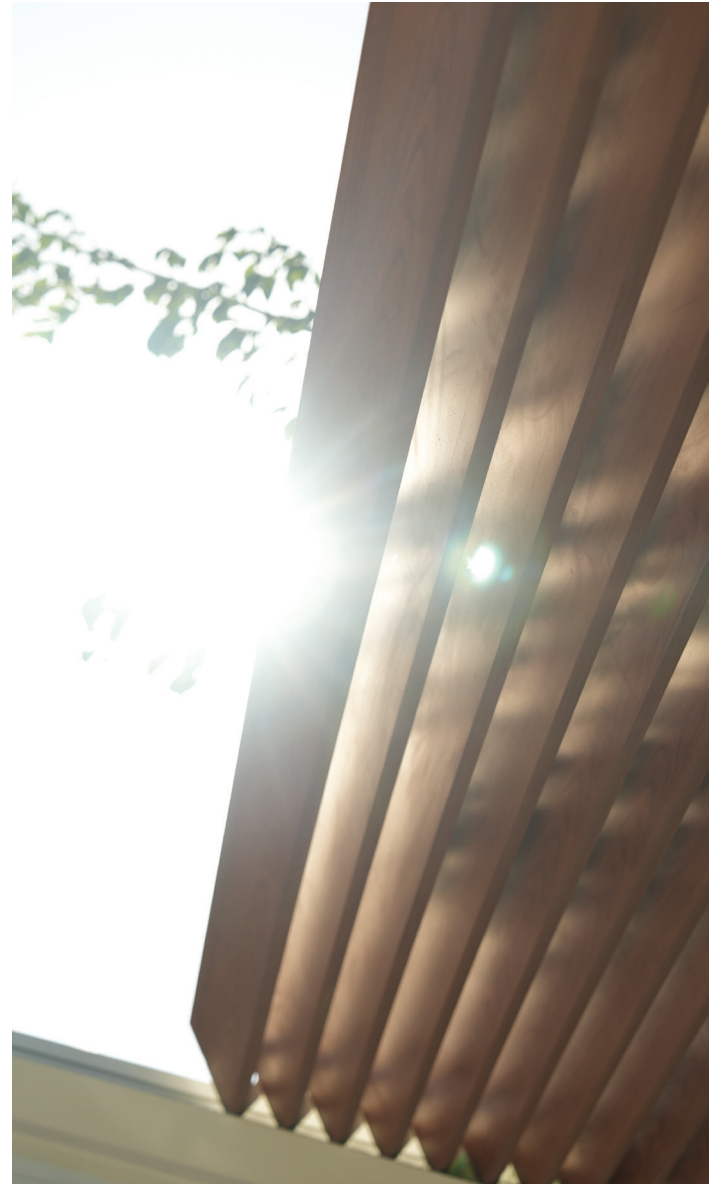

Double-Action Pergola

Welcome To Our 3rd Generation Of Double-Action Pergolas

Thanks to our R&D team that works so hard to carry out our constant performance-driven innovation, ElHejaz now redefines what you expect from a pergola!

Behold our third generation of pergolas, Refined, Upgraded, and Smarter

- Retractable roof manufactured from aluminum louvers, with a practical design that allows for control of sunlight and ventilation.
- Can be customized for any dimensions .
- Fully aluminum structure and stainless steel mechanisms.
- French Somfy motor and German drive belts, with up to 3 years warranty against manufacturing defects.

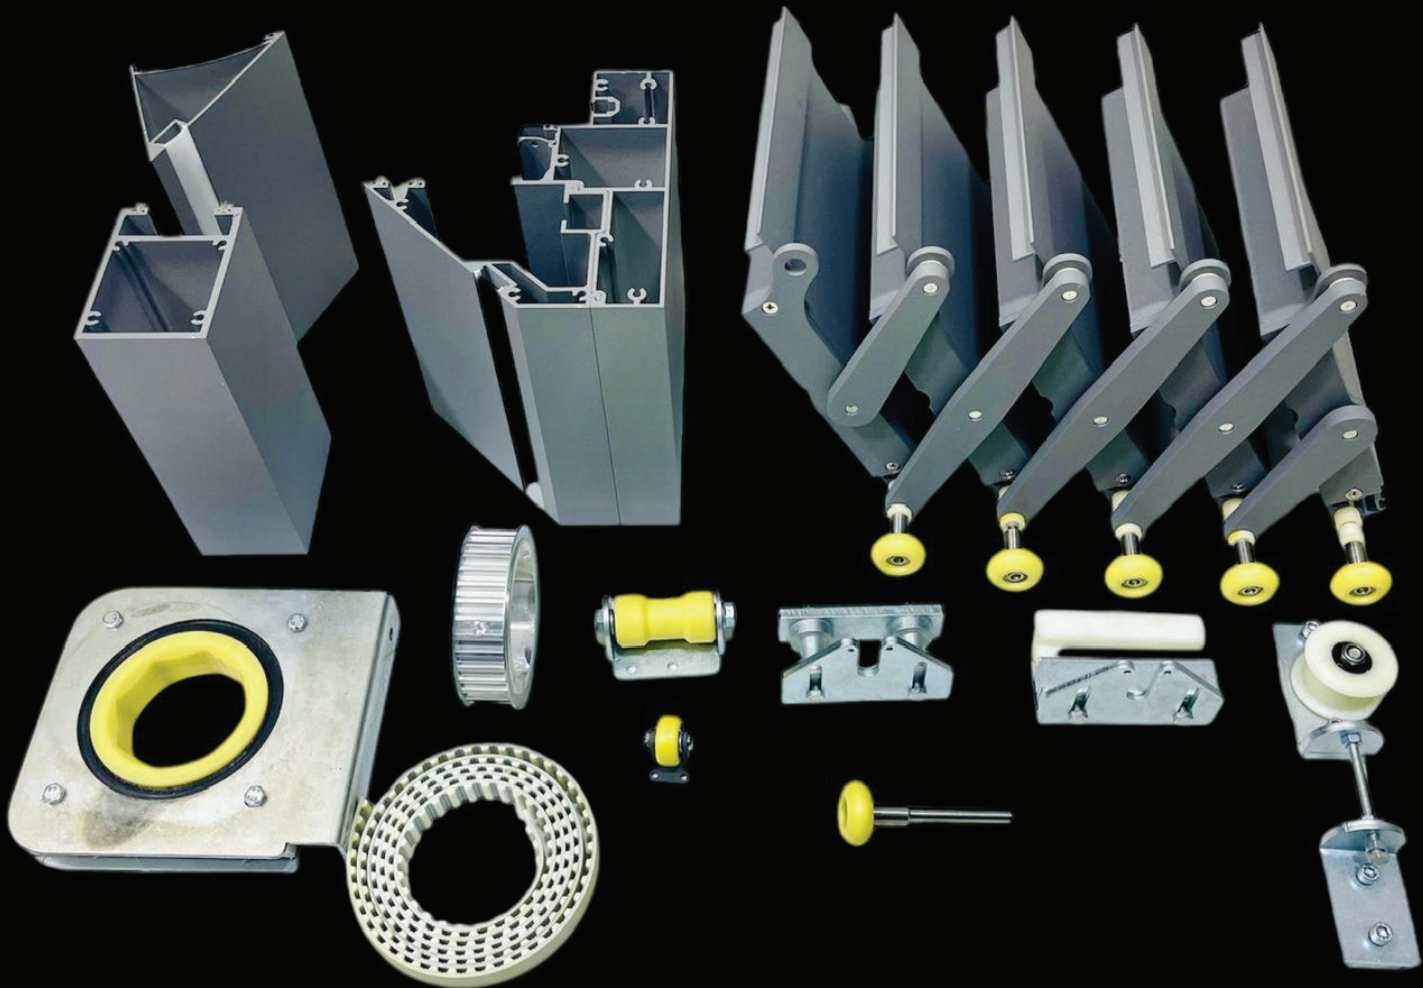

- Equipped with a dedicated rainwater drainage system, ensuring complete protection from water.
- LED lighting with an easy-to-use control panel & better distribution.
- Electrostatic & wood like water resistant paints.
- Ability to add curtains and glass facades.
- Smart home integrated.

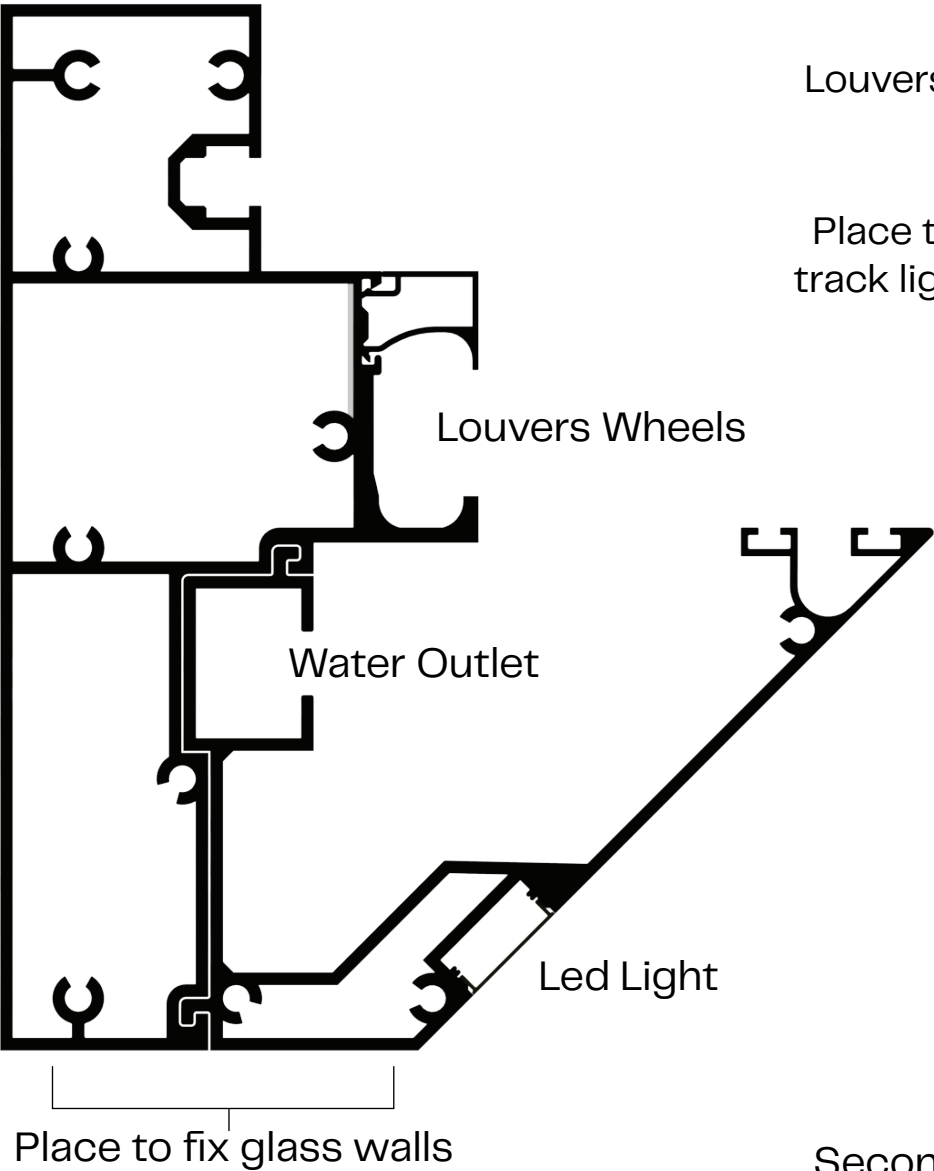

Sections & Profiles:

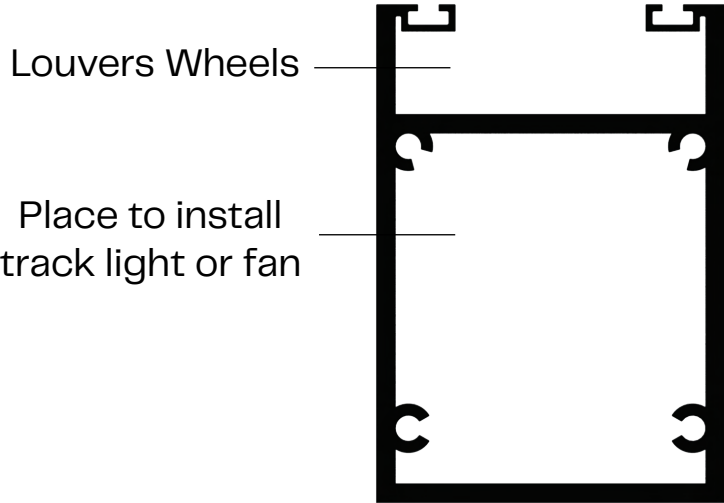

We use durable & robust structures consisting of aluminum ceiling panels, and framework. They are controlled by a motor and remote control, providing protection from sun & rain.

Installation & Modularity:

ElHejaz provides various installation types tailored to your needs.

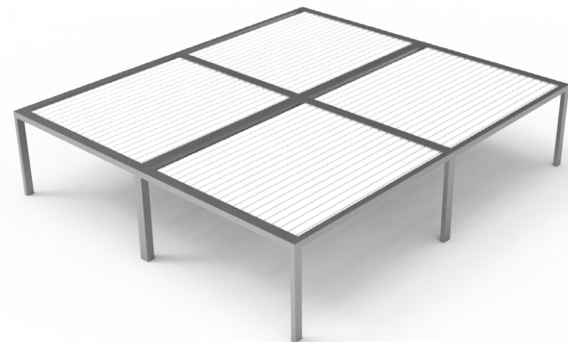

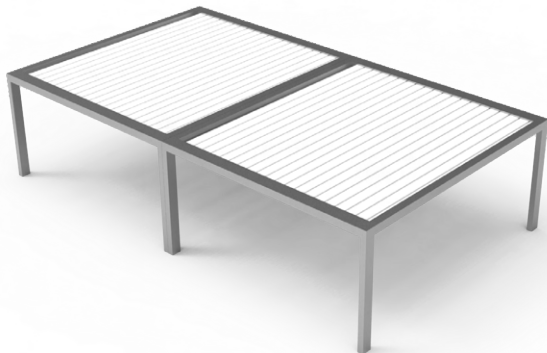

Free Standing

Wall-Mounted

In addition to modular structure; which allows for the closure of infinite square meters of space.

A modern outdoor lounge area featuring a retractable pergola with a dark, slatted roof. The walls are made of large glass panels, providing a view of a lush green lawn and trees outside. The furniture includes two light blue sofas with teal and white cushions, a central sofa with a vibrant, colorful patterned base and red, yellow, and orange backrests, and a long, white, ribbed coffee table. A white air conditioning unit is mounted on the central wall. The floor is covered with a patterned rug. The overall atmosphere is bright and airy, with natural light streaming in from the glass walls.

Enjoy Multiple Facilities With ElHejaz Retractable Pergolas
