## Technical Features

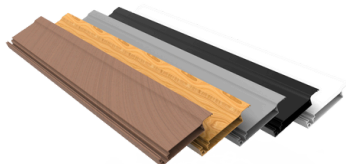

### Synchronized Panel Movement

This innovative synchronized motion represents the latest technology, enabling the simultaneous retraction of all panels.

### Colors and Textures

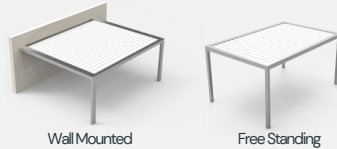

The dual-color feature enables panels and structural components to be painted in contrasting shades. We use cutting-edge nanotechnology to apply electrostatic powder coating to profiles, ensuring a high-quality finish.

## Installation Types

Pergolas can be wall-mounted if needed or independently designed to stand on its own posts.

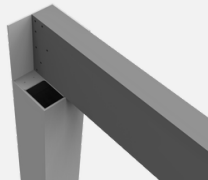

## Modularity

Its modular structure allows for the closure of infinite square meters of space.

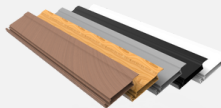

## ANCHORAGE & WATER OUTLET

The pergola is equipped with a rainwater drainage system that ensures complete water insulation, and it includes a motor for easy operation.

## Color Options

The coatings are electrostatic heat-resistant, designed to withstand weather conditions, or wood-like finishes that provide the look and feel of natural wood.

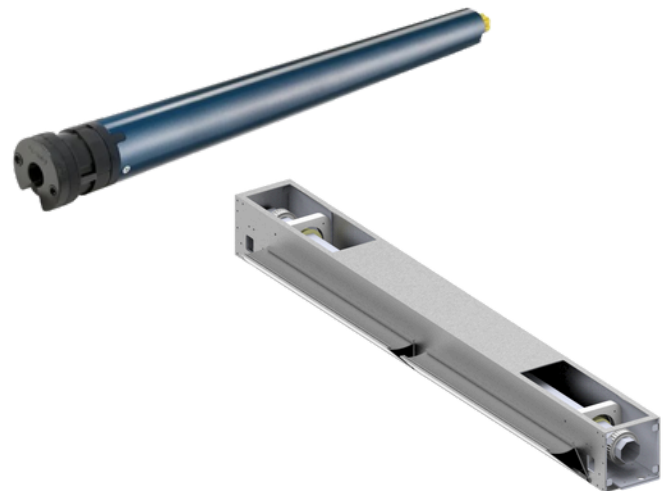

## CONTROL & AUTOMATION

The motor system used in the pergola is a high-quality Somfy motor, manufactured in France. It ensures smooth and efficient movement, providing reliable performance for all motion functions.

## TAILORED TO YOUR LIFESTYLE!

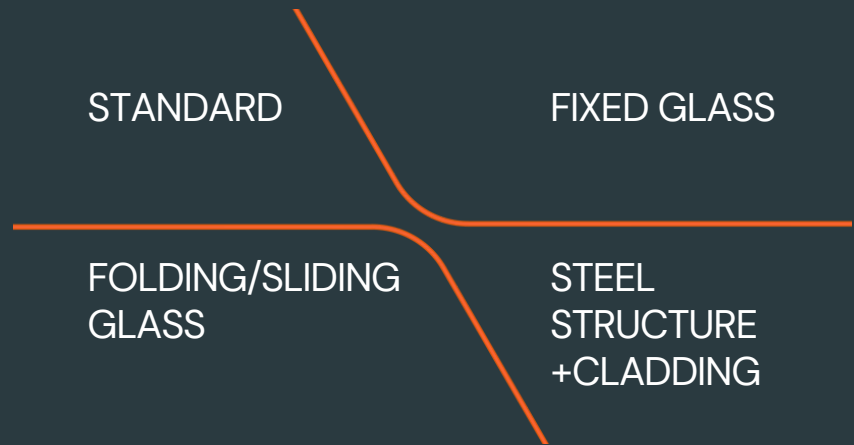

- Our products incorporate Somfy motors, remote controls and automation systems.
- The pergola can be upgraded to include smart technology, making it compatible with smart home systems for seamless control of its features, such as lighting, motorized operation, and weather sensors, all through a mobile app.

# PERGOLA OPTIONS

## We Offer A wide Range Of Pergola Structures

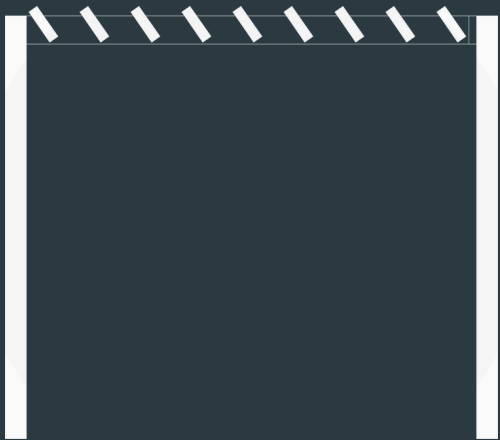

- At El Hejaz, we provide a diverse range of pergola solutions to suit various outdoor needs. Our offerings include standard pergolas, fixed glass wall pergolas,
- and versatile designs featuring glass folding or sliding options, allowing you to customize your space according to your preferences.
- In addition, we can create robust steel structures with elegant cladding, ensuring durability and aesthetic appeal.
- Whether you're looking to enhance your garden, patio, or outdoor living area, our innovative pergolas are designed to blend functionality with style, making your outdoor experience truly exceptional.

# MOVABLE PERGOLAS

- **One** Action

- **Double** Action

Smart Moves, Life Improves.

# STANDARD PERGOLA

STANDRAD

## STANDARD PERGOLA

This standard pergola features a robust aluminum frame and columns, providing durability and a modern aesthetic. Designed for both functionality and style, it offers an inviting outdoor space perfect for relaxation and entertaining. The pergola can be enhanced with the addition of LED lights, allowing for customizable lighting options that create a warm and inviting ambiance during evening.

**DISCOVER THE  
IDEAL BLEND OF**

**contemporary design, sustainable  
living, and outdoor comfort.**

# FIXED GLASS WALL PERGOLA

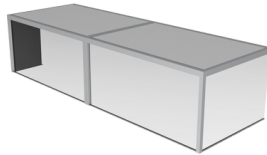

# FIXED GLASS WALL

## FIXED GLASS WALL PERGOLA

The Fixed Glass Wall Pergola with an aluminum frame combines modern aesthetics with durability. Its sleek aluminum structure supports fixed glass walls, allowing natural light while providing protection from the elements. Perfect for patios, gardens, or poolside areas, this design offers year-round use, blending style and functionality.

**DISCOVER THE  
IDEAL BLEND OF**

contemporary design, sustainable  
living, and outdoor comfort.

# FOLDING/SLIDING GLASS PERGOLA

# FOLDING/SLIDING GLASS PERGOLA

## FOLDING/SLIDING GLASS PERGOLA

The Folding/Sliding Glass Pergola with an aluminum frame offers a perfect balance of modern design and durability. Its elegant aluminum structure supports folding or sliding glass panels, allowing natural light to flow in while providing flexible protection from the elements.

## Technical Features

### Glass And Colors

- We offer a variety of glass wall options for your pergola, including fixed, folding or sliding designs to suit your preferences and space requirements.
- The glass itself can be customized using different types such as tempered (securit), laminated (triplex), clear, reflective, or tinted, providing both aesthetic flexibility and functional benefits like enhanced privacy or UV protection.
- The installation is carried out using premium aluminum, stainless steel, or UPVC profiles, ensuring a sturdy, durable structure that complements the overall design.
- This combination of high-quality materials and customizable options allows for a stylish, functional, and weather-resistant addition to your outdoor living area.

# STEEL STRUCTURE +CLADDING

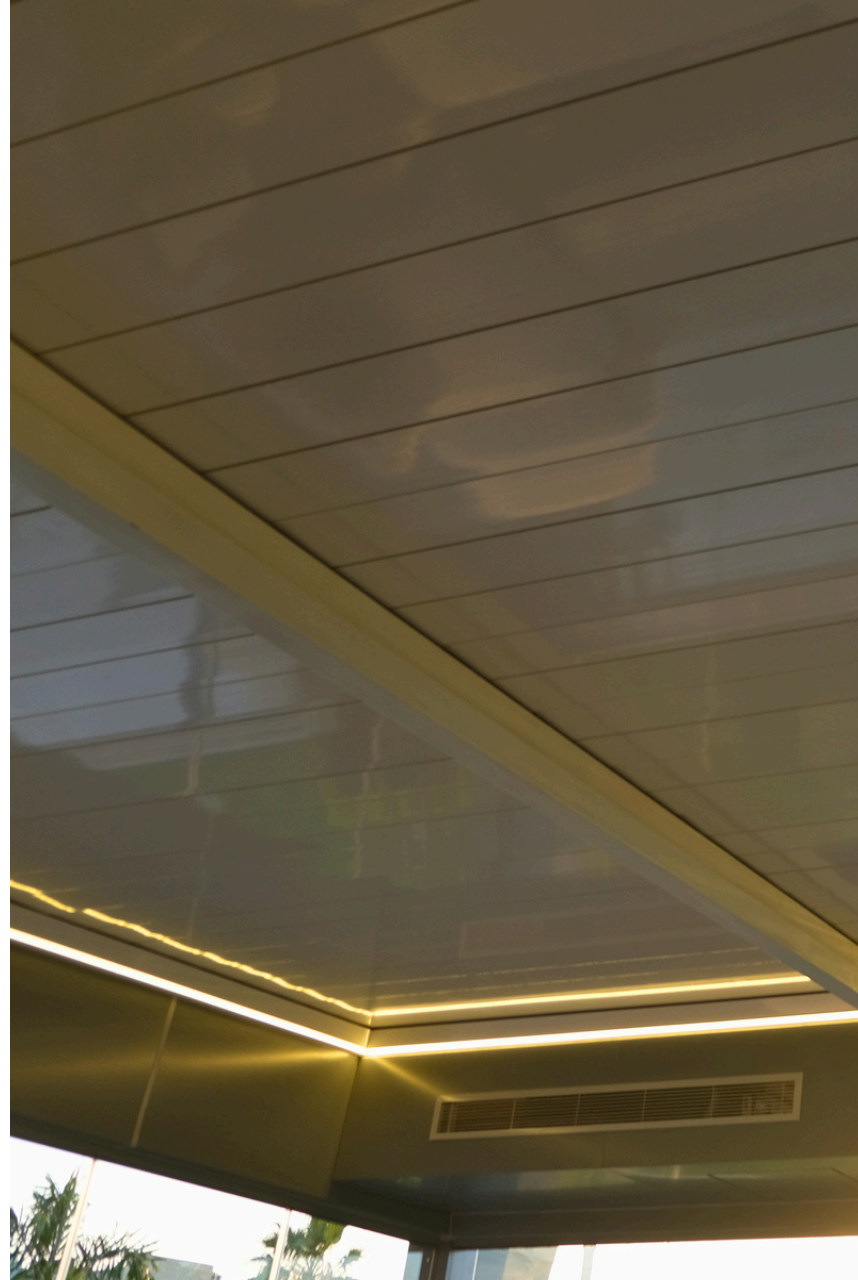

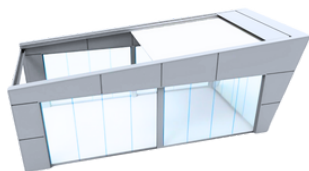

CLADDING

## STEEL STRUCTURE +CLADDING PERGOLA

Transform your pergola with exquisite cladding options for its frame and columns. We offer a selection of high-quality cladding from Saudi Arabia and the USA, expertly installed on a sturdy metal structure to enhance both aesthetics and durability.

**DISCOVER THE  
IDEAL BLEND OF**

contemporary design, sustainable  
living, and outdoor comfort.

## Technical Features

### Cladding

- We provide high-quality cladding solutions for the frame and columns of your pergola, using top-grade materials to ensure both durability and aesthetic appeal.
- Our cladding options include High Quality Material
- more natural wood-like finishes, we offer a full spectrum of colors and wood tones to match your design vision.
- The cladding is expertly installed on a robust metal chassis, ensuring a secure fit and a refined finish that will enhance the beauty and functionality of your pergola for years to come.

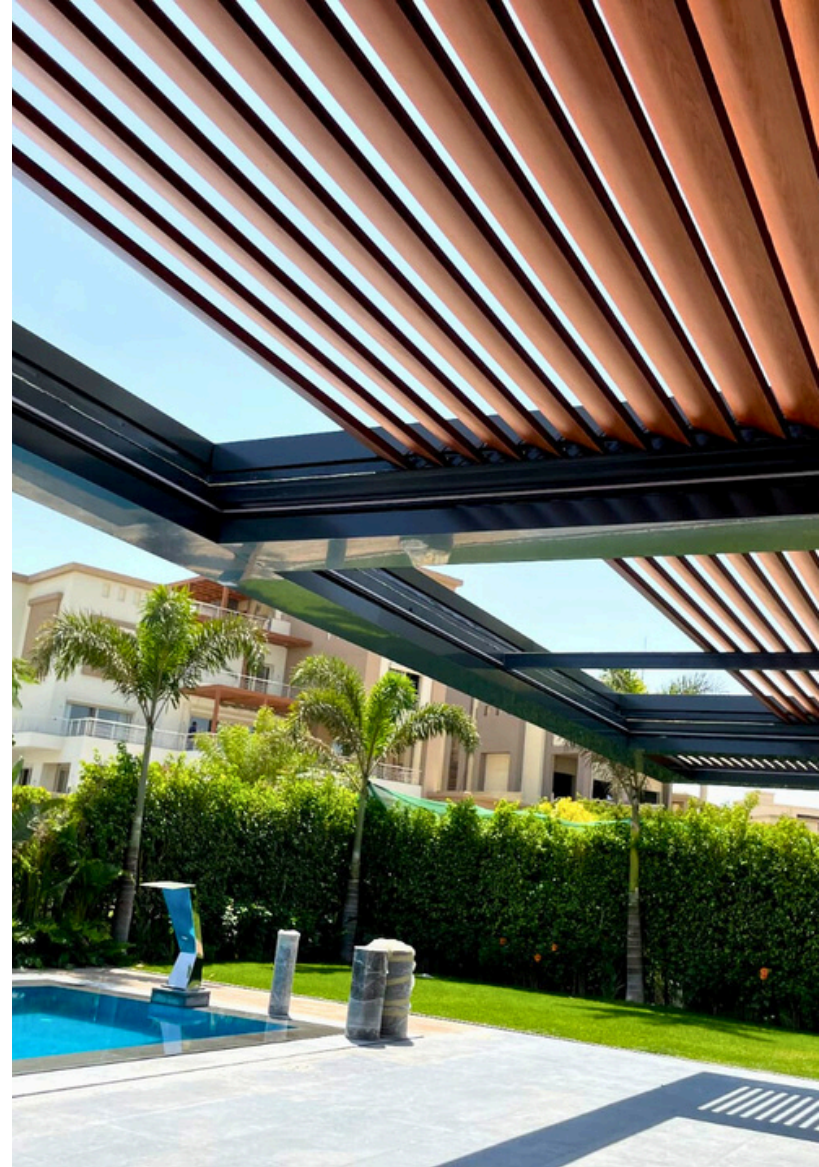

# ONE ACTION PERGOLA - DOUBLE ACTION PERGOLAS

## Enter the realm of **ONE ACTION PERGOLAS**

- Their systems are durable and robust structures consisting of aluminum ceiling panels and an aluminum framework.
- They are controlled via a motor and remote control, providing protection from the sun and rain.

- They can be used year-round in all outdoor spaces, both commercial and residential side, making them suitable for all seasons.

## ELEVATING INDOOR ATMOSPHERES WITH **DOUBLE ACTION PERGOLAS**

## One Action

providing optimal comfort for any outdoor setting. Its sleek design and ease of operation make it a perfect choice for patios, gardens, or terraces, blending functionality with modern style.

## One Move

The One-Action Pergola offers a seamless, user-friendly experience with a single control mechanism that adjusts the pergola's roof. With just one action, you can open or close the roof to manage sunlight and ventilation.

## Double Action

Built with a durable aluminum frame, this pergola allows users to open or close the louvers via a motorized system, providing flexibility to enjoy shade or full sunlight as desired. Its modern design makes it perfect for outdoor living areas, ideal for both residential and commercial spaces.

## Two Moves

The Double Action Pergola is a versatile outdoor structure designed with adjustable louvers that offer two-way movement.

Step into a world of diverse pergola options tailored to fit your space seamlessly.

## ANOTHER OPTIONS

### CANTILIEVER PERGOLA

Elegant shade with modern, cantilevered design.

## SWIMMING POOL COVERS

### Steel Frame and Wooden Deck Swimming Pool Cover

This swimming pool cover is designed with a robust steel frame structure, ensuring durability and stability. The top surface is elegantly finished with high-quality wooden decking, providing a natural and aesthetic appeal.

- **Steel Frame:** Offers a strong and long-lasting base, resistant to weather conditions and capable of withstanding heavy loads.
- **Wooden Decking:** Adds a warm and sophisticated touch, treated for water resistance and durability, making it ideal for outdoor use.
